

PERFORMANCE MANAGEMENT REPORT 2021

REPORT CARD FOR STAKEHOLDERS

This booklet is like a report card. It tells people about what things that are important in how well we support people. It tells you, your family and other people what we think what are things that are meaningful for us to report on each year.

The information in this report card may be confusing or hard to understand so please ask us, a friend or a family member for help if you want to know more about the report and what it say.

This book has information about:

1. How the employees at ARC Broward worked to make sure that there are excellent services for you.
2. How well we are supporting you in terms of helping you reach your goals and how happy you are with what we do.

Arc Broward ensures that everyone can access the same information in a format that helps them understand and we can accommodate each person's uniqueness. If you need the information in this report in a different format, please contact us and we will provide information that meets your needs.

Many of Arc Broward's programs are accredited by CARF. In keeping with CARF's principle of continuous getting better, every program has identified measurable outcome based goals and activities that build us deliver services to the persons that are helpful to persons served.

CARF further requires indicators in the following four categories:

1. Efficiency: measures how we spend our time and money
2. Effectiveness: measures how well we help you with your goals
3. Service Access: measures things that are a barrier to you or others receiving services
4. Satisfaction: measure how happy you are with the services we provide

The following tables align the indicators Arc Broward uses to guide and manage the day to day program operations of the agency.
